BIG BOMB SHELL!

Expected to Explode in the Camp of the Strikers—Webb's Defiant Attitude.

ALBANY, N. Y., Aug. 19.—This was the quietest day of the strike yet, and the strikers, while gathering in their regular places were very reticent. One of them said: "We are waiting for something, and when that something comes it will be the biggest bomb shell that has exploded yet."

A large mass meeting is called for this evening at the Public market, Hudson avenue and Grand street, to protest against the action of Pinkerton and his men.

The knights to-day issued the following bulletin: The railroad people claim that they are rapidly breaking the blockade and that their freight will be all moving regularly inside of three days. The West Albany yards were crippled again this morning by the refusal of twenty of the new men to go to work. The Pinkerton men have in a great measure been withdrawn and the city police are doing splendid work. Headquarters D. A. 246, Knights of Labor, Albany, 10 a. m.—All solid along the lines. Advice received as follows: Buffalo—A large and enthusiastic meeting of Lake Shore and Michigan Southern, New York Central and Michigan Central railroad employees are now gathering at the hall of the Knights of Labor to discuss the situation and take action. Brother Davlin, of the general executive board, and others will address them. Rochester—Everybody firm in Rochester. Lockport—The striking switchmen marched in a body from the Labor hall last evening and proceeded to the sheriff's office and offered their services as deputy sheriffs and protested against the appointment of Pinkerton detectives. Hundreds of knights cheered the procession.

POWDERY TALKS.

New York, Aug. 19.—Mr. Powderly is at the St. Cloud hotel. When asked by a reporter about the trouble he said: "Matters connected with the New York Central trouble have reached a most serious and critical point and one that will interest the people of this country more than they imagine at the present time. I do not mean to say that there will be a general strike and I do not deny it. There will be a meeting to-day of the general executive board of the Knights of Labor, which will be attended by the representatives of the trainmen, firemen, switchmen and conductors and at that meeting final action will be taken."

LOOKS THREATENING.

BUFFALO, N. Y., Aug. 19.—There is but little change to be noted either in the strike situation or the condition of the Central freight traffic this morning. The new yard men brought from the east are slow at getting acquainted with the yards, and are awkward at the work. Several have had narrow escapes from being injured. A Boston man named Gue, was thrown from the top of a car, this morning, and narrowly escaped being killed. This is considered by the strikers to be the vital day, and all eyes are turned anxiously toward New York, where the head men of the great labor federation are in council.

A largely attended meeting of switchmen and knights was held this morning and was addressed by John Davlin and District Master Workman Lee. Chas. H. Trenchum, grand president of the Steam Railroad Men's Protective Association of New England, is expected here to-day. Mr. Lee received a cipher message from Trenchum last night, the contents of which have not been divulged, but a leading striker says there is every probability that the members of that body will go out if the Central trouble is not settled in a day or two. The Knights of Labor firemen on the lake boats are prepared to go out if any attempt is made to handle non-union freight by that route.

Railroad men who have been talked with frankly admit that at no time since the strike began has the outlook been so ominous as now. All concede that the probabilities are that by to-morrow night the strike will be ended or it will spread to about all the branches of the operating department, and if need be to the other roads in the Vanderbilt system. Before leaving for New York last night Grand Master Sweeney had a conference with Superintendent Seabert, of the Delaware, Lackawanna and Western road, and it is said it was agreed between them that that road would keep its hands off the Central freight.

WEST ALBANY, N. Y., Aug. 19.—Late yesterday the Pinkerton people here telegraphed their New York and Philadelphia officers to stop hiring men and

not to send any more men to this point. The police here are in sympathy with the strikers and all flatly refused to do anything to protect the Central's property. This was the reason for hiring Pinkerton men. Further trouble is expected here to-morrow.

NEW YORK, Aug. 19.—Mr. Powderly and Secretary Hayes arrived here this morning at 8 o'clock from Buffalo. Grand Chief Sargent, of the federation of railway employees, R. E. Wilkinson, of the trainmen's association, Chairman General Howard, of the railway conductor's association, and Grand Master Sweeney, of the switchmen's association, are at the Grand Union hotel. On all sides rumors are flying, and important developments are hourly expected. Vice-President Webb was at his office bright and early this morning, and seems as determined as ever to fight the knights.

WEBB'S DEFIANT ATTITUDE.

Mr. Webb said to a reporter of the United Press: "For the past few days I have been making arrangements to get a new force of firemen in case those on the road go out and I have so far succeeded that any delay from that cause will only be temporary. I have enough assurance from the firemen on my road to convince me that in case they are ordered out a number of them will not go. Then, if necessary, I will stop every particle of freight traffic, close up every yard and keep them closed until I have obtained a sufficient number of new firemen to resume the freight traffic. This I think I can accomplish within forty-eight hours, as I have a long list of men who will come at the wages we will pay." In conclusion he said: "My road will expend \$2,000,000 and in this I am backed up by the stockholders." Up to 11 o'clock no meeting of the labor leaders had been held.

IS IT ENDED.

BUFFALO, N. Y., Aug. 19, 1 p. m.—A director of the New York Central is authority for a statement just given out that Superintendent Burrows has been ordered to take all his men back, and that the strike is at an end.

Supt. Burrows, shortly after noon to-day, received a dispatch from General Manager Toney, in New York, ordering him to reinstate the men now out on a strike. This ends the strike so far as Buffalo is concerned. It is understood that the news was entirely unexpected by Mr. Burrows.

A United Press reporter made an effort to see Superintendent Burrows upon the announcement of the report. Mr. Burrows sent word that he was in communication with New York and did not wish to say anything just then but would have a statement later.

DECISIVE ACTION.

NEW YORK, Aug. 19.—At 2 p. m. Mr. Powderly said that there would be a meeting of the general officers interested in labor organizations with the executive board of the Knights of Labor, at the St. Cloud hotel at 3 p. m. to-day. He intimated that the meeting would be decisive. No communication has been sent to Mr. Webb.

OTHER TROUBLES.

DANVILLE, Ill., Aug. 19.—The Chicago and Eastern Illinois and the Ohio and Indiana railroads are laying in full supplies and making other arrangements for a strike of their engineers, firemen and trainmen, which is likely to occur this week. The men want higher wages and more extra time on the run between Danville and Chicago. They will have a final audience with President Porter in Chicago next Friday.

BIRMINGHAM, Ala., Aug. 19.—The master workman of the Knights of Labor in Alabama, has written a letter to the secretary of district assembly 49, of New York city, in which he says the order is rapidly going to pieces in Alabama. He gives as reasons for the break up of internal dissensions in the order, bad management and unwise strikes.

EIGHT KILLED.

A Terrible Accident on a Railroad in Massachusetts.

Boston, Aug. 19.—At 1:30 this afternoon a call for surgeons and ambulances was received at police headquarters in Boston, on account of a serious accident on the Old Colony railroad, at Braintree. It is reported that eight persons besides the engineer and fireman were killed, and twenty persons injured.

The accident occurred at one o'clock, near President's bridge. The engine toppled over and the first car fell on top of it, setting fire to the train.

The accident happened to the Cape Cod and Woods Hall train on the Old Colony road at Quincy. The nature of the accident is not known, one report being that the train jumped the track.

A WOMAN OF NERVE!

She Murders Her Husband's Political Opponent at a Fair and Then Defies Arrest.

BROWNSVILLE, Tex., Aug. 19.—County Judge Max Stein, of Hidalgo county, and a wealthy and leading merchant of Edinburg, Texas, was shot and killed Sunday night in Brownsville, Mex., by Mrs. Dela McCabe, of Corns county, Texas. The murderess is the wife of ex-County Judge McCabe.

Judge Stein, with his wife and daughter, were in attendance at the fair at Brownsville and the shooting was done in their presence. Mrs. Stein, as her husband fell dead, sprang towards the murderess, but was felled with a savage blow on the temple with the barrel of the pistol. The chief of police, who rushed up to her, was also knocked down and then, like a lioness at bay, she brought her ready revolver down upon the policeman, who came up, and defied them to arrest her. Some cavalry men finally crept behind the woman, and after a desperate struggle succeeded in disarming her.

The affair grew out of election troubles, McCabe being unseated as county judge, and Stein selected to succeed him. McCabe, aided by a party of friends, tried to forcibly capture the court house, and failing, fled to Brownsville. It is stated that letters were written to Corns county, where the McCabe's formerly lived, to get their records. Mrs. McCabe heard of this and swore vengeance on her husband's successor.

IN A BAD STATE.

The War in Guatemala is Disastrous to All Classes.

New York, Aug. 19.—A special from Guatemala, dated August 17, via City of Mexico, says: United States Minister Minner returned here Saturday evening from La Libertad, having come to San Jose on the United States steamer Tacatis. He says he will investigate the complaints about his telegraphic correspondence which have recently been made. He expresses himself as very much pleased with his treatment by the Salvadorians, but has nothing to say about the result of the trip. Unless Mr. Minner breaks his guarded silence the causes of a number of recent troubles will not be explained, as it is thought he knows more than he is willing to divulge.

Consternation continues in this city. All necessities of life are sold at fabulous prices. Commerce is very much depressed. Merchants have sent orders to the United States and Europe, countermanding and delaying shipments on all goods ordered. By this course the effect of the war is felt by all classes, and if continued will be the means of wrecking the commerce of the country.

PEACE HAS COME.

SAN SALVADOR, Aug. 19.—Provisional President Ezeta has just received a telegram from Dr. Galinda, the confidential agent of Salvador now in Guatemala, saying that the terms of the treaty had been arranged. Dr. Galinda says in his dispatch that the treaty is most favorable to Salvador. All the points demanded by Ezeta have been conceded by the Guatemalan government.

Dr. Galinda will leave the city of Guatemala for this city to-morrow to arrange the terms of the protocol. Owing to the receipt of this news President Ezeta has revoked the orders to his army to advance toward the city of Guatemala and consequently there has been an entire cessation of hostilities. Nicaragua and Costa Rica had decided to become the allies of Salvador and had pledged themselves to do all in their power to help Ezeta. Honduras had, as was known several days ago, promised to become the ally of Guatemala.

AT THEIR RETREAT.

Eighty Priests of This Diocese at South Bend.

SOUTH BEND, Aug. 19.—The priests of the Fort Wayne diocese entered into their biennial retreat at Notre Dame last evening. It will continue for one week. There are about eighty priests in the diocese. The Very Rev. Father Wayrich, C. S. S. R., preaches the retreat sermon, and the Very Rev. Vicar General and Administrator Brammer, of Fort Wayne, in the absence of Bishop Dwenger, will preside.

Killed in a Wreck.

ASHLAND, Wis., August 19.—A wild freight on the Wisconsin Central railroad yesterday collided with a stray flat car, which had blown on to the main track at Glendon, wrecking the engine and seven cars. The brakeman, James W. Emley, was killed, and Engineer Lessard and a fireman injured.

PREVENT POACHING.

Uncle Sam Will Endeavor to Do It in Behring Sea—Vigorous Measures Adopted.

TACOMA, Wash., Aug. 19.—The revenue cutter Corwin on Saturday received orders to proceed to Behring Sea and is now en route to Seattle to coal. Captain Hooper says he has orders to act under the first instructions received. The first orders directed the captains of the cutters to seize all vessels where there was any circumstantial evidence to show that they had been poaching. The subsequent orders were that the cutters should serve all vessels found in the sea with a copy of President Harrison's proclamation, and if the vessel was seen again to capture it. The department, Captain Hooper's orders lead one to believe, has determined that the more vigorous policy should be followed, and although it is late in the season, all vessels found poaching are to be summarily dealt with.

DID NOT PAY ITS PRIZES.

Officers of a Lottery Company Leave Kansas City with \$30,000 of Their Dues' Money.

KANSAS CITY, Aug. 19.—The Denver Lottery company, which recently opened headquarters in Kansas City, Kas., has vacated its office, and its officers have fled the town after having received \$30,000 by the sale of tickets, leaving all prizes unpaid.

The company was driven out of Denver, Col., a month ago, and went to Kansas City, B. F. Rhodus assuming charge of the office. Slight drafts drawn by prize winners from various parts of the country have been received by the local bank for collection. Chief of Police Pearson says the officers of the company got away with fully \$30,000. Warrants have been sworn out for the arrest of Rhodus, charging him with having used the mails fraudulently and with having received money under false pretenses.

MADE BIG MONEY

By the Sale of Articles for Immoral Purposes, but is Arrested.

DES MOINES, Iowa, Aug. 19.—A sensation was created here by the arrest by United States Marshal Eltridge, of Miss A. L. Smith, on a charge of using the mail for circulating obscene literature in the form of advertisements of articles for immoral uses. The young woman is respectably connected, and has heretofore been in reputable society. She has been carrying a successful business for some time, her advertisements appearing in a number of reputable eastern papers. Her circulars and proposals were made to both sexes, and she claims to have sold to ladies \$3,000 worth of her various preparations. She makes no attempt at concealment, and claims she was doing a legitimate business. She gave bonds to appear before the next federal grand jury.

The Athletic Club.

PHILADELPHIA, Aug. 19.—The Philadelphia Brotherhood club, it is said, are about to buy out the Athletic club of this city. No actual negotiations to this end have yet begun, but it is understood that the Athletic stockholders are willing to sell. The object of the Brotherhood in purchasing the club will be to get the use of the name and to make the base ball situation in this city less complicated. Catcher Robinson and Third Baseman Lyons will probably join the Brotherhood club in the event of the purchase.

Natural Gas to Manufacturers.

PITTSBURGH, Aug. 19.—The Philadelphia company, which has a monopoly of the business of supplying natural gas in Pittsburgh and Allegheny, yesterday gave notice of an increase of five per cent. in the price of natural gas to the mills and factories. The company has found it more profitable to sell gas to private consumers than to places where the consumption and waste are great and their object is to make the large concerns return to the use of coal.

Fire at Logansport.

LOGANSPORT, Aug. 19.—A fire last night destroyed the large warehouse of John Lux, in Shultztown, a suburban village of this city, which contained 100 tons of hay, a large lot of farming machinery and grain, with six new buggies, a lot of harness, etc. A house and two stables adjoining the warehouse were also destroyed. Loss, \$10,000; insurance, \$5,000. Lux has suffered loss from fire three times within the last five years.

Snow Fell.

DENVER, Col., Aug. 19.—A very light snow fell in this city last night, the first of the season.

QUAY NOT QUASHED.

The Election Bill Must Go Over Until December for Consideration.

WASHINGTON, Aug. 19.—Mr. Quay's resolution providing for a vote on the tariff bill on the 30th, and to postpone till next December consideration of the federal election bill and some other matters, was laid before the senate this morning. Mr. Hoar said he desired to address the senate on the subject, but would prefer to do so to-morrow. Mr. Quay said he had no objection to the resolution going over without prejudice and with the understanding that it would be taken up then; so the resolution went over till to-morrow.

Mr. Plumb's resolution offered yesterday to prevent the sale of liquors in the senate wing of the capitol was taken up and Mr. Butler moved an amendment directing the sergeant-at-arms to make daily inspection of the committee rooms and other apartments in the senate wing and to report to the committee on rules whether he had found liquors therein. Mr. Gorman wanted to refer the resolution and amendment to the committee on rules. Mr. Blair said something about making a four-hour speech on the resolution rather than have it referred to the committee on rules and defeated by delay. Mr. Gorman at once withdrew his motion for reference and the resolution went over until to-morrow.

The tariff bill was taken up, the pending question being on Mr. Plumb's amendment reducing the duty of tin plate from two to one cent per pound and allowing a bounty of one cent a pound on American tin plate. Upon a request for a division of the question, the presiding officer, recognizing its divisibility, decided it in the negative and therefore it could not be again voted on in committee of the whole, the vote would be taken on the bounty clause, but this change in the condition of the proposition was not acceptable to Mr. Plumb and he withdrew the whole amendment with the understanding that he would offer it again in the senate. An amendment offered by Mr. McPherson, the effect of which would be to place tin plate on the free list, was rejected.

Representative Kennedy, of Ohio, has put in circulation an agreement to be signed by the republican members of the house pledging them to prevent the tariff bill going to the president until the election bill is passed by the senate. He claims to have forty-nine signatures.

The house to-day tabled the motion to reconsider the motion by which the Mat McKay bill was passed. This finally passed the bill. The bill to amend the alien land law was taken up, discussed and went over without action.

Mr. Cannon, from the committee on rules, reported resolutions setting apart to-day, Wednesday, Thursday and Saturday and Tuesday and Wednesday of next week for consideration of bills reported from the committee of agriculture. The first bill to be taken up is the senate bill to aid agricultural colleges, the previous question to be out of order after two hours' debate.

The next bill to be taken up shall be the bill for the inspection of meats for exportation, and voted on after two hours' debate. Then the bill defining hard shall be taken up and the previous question ordered at 3 o'clock Wednesday. On the days specified the house shall meet at 11 o'clock. The order further provides for a morning hour each day.

The Pilot's Editor.

BOSTON, Aug. 19.—James Jeffry Roche will undoubtedly be selected as editor of the Pilot as successor to the late John Boyle O'Reilly. Mr. Roche is now one of the editors of the paper and he and Mr. O'Reilly were the staunchest of friends and co-workers. Archbishop Williams, it is understood, will purchase Mr. O'Reilly's interest in the paper, thus giving him absolute control.

Fatally Hanged.

DROATON, Ind., Aug. 19.—Mrs. John Breit, the wife of a young farmer living near this city, was fatally burned last evening. She was alone at the house, getting supper, when her clothes caught fire from the kitchen stove, and before she could summon aid all her clothing was burned off, and the flesh horribly roasted. The house also caught fire, but it was saved. Her death is momentarily expected.

Chicago Markets.

CHICAGO, Aug. 19.—Wheat: Aug., \$1.03; Sept., \$1.05; May, \$1.13. Corn: Sept., 49; Oct., 50; May, 53. Oats: Aug., 37; Sept., 36; Oct., 35; May, 40. Pork: Sept., \$11.25; Oct., \$10.80. Lard: Sept., \$6.25; Oct., \$6.42. Ribs: Sept., \$5.45; Oct., \$5.60.

LOOMS UP BIG.

About \$100,000 Spent in Fort Wayne Buildings During the Past Six Months.

Captain Charles Reese has compiled a record of the estimated cost of buildings for which permits were issued from January 1 to July 1, 1890. The permits represent that for the period named, buildings have been erected or construction began amounting in worth to \$983,840, all this within the corporate limits. This amount does not show much of an increase over six months last year, \$965,005, but shows a decided growth over the first six months of 1888, when the cost of buildings amounted to \$237,775. Taking into consideration that the suburbs are becoming thickly settled, and the numerous buildings are practically in the city, the figures could no doubt be raised to \$1,000,000.

CHURCH IN JAIL.

Are They Man and Wife?—News From the Police Court.

Among the offenders called up before the mayor this morning was a pair, a man and a woman. They were slated as "C. Church and Eliza Church, drunk." They have been living in "Nebraska," and the gossip says they are not man and wife. The woman has been taking in washing to keep herself and the man who passes as her lord, but she seems to relish the idea. Not infrequently have these two burdened themselves with a boisterous "jag," much to the irritation of neighbors, who finally made a complaint. The relations of "Mr. and Mrs. Church" will be further investigated, while they serve an eleven days' jail sentence.

Louis Hamilton, a printer, was arrested by Officer Richter for intoxication. Hamilton got bail for a prisoner yesterday, and alas, poor fellow, his thanks came not by a similar favor to dry. Cyrus Danes and John Nalligan were arrested by Officers Lincecum and Richter, and both are now in jail for eleven days.

FOR FORGERY.

Lawyer Charles F. Henderson in Jail at Lacrosse, Wis.

Probably no individual ever came to Fort Wayne and got so much notoriety in so short a time as did Charles F. Henderson, whose eccentricities are still fresh in the memory of those who made his acquaintance. He is a lawyer, and while he lingered in this city he defended a number of offenders for petty fees. A letter from Lacrosse, Wis., says that Henderson is in custody there for forging a name to procure eight dollars. Fort Wayne attorneys who admired the man's pluck and hustling ability, are now asked to help him out of his present difficulty.

WILL LIVE TO TELL IT.

Philip Ryan, Who Was Stabbed at Auburn, Will Recover.

Philip F. Ryan, who was stabbed at Auburn, recently, will recover. The man's abdomen was cut open and the bowel perforated by a knife in the hands of a man named Crouse, who is now behind the bars. Dr. Greenawalt, of this city, who was called into consultation, knew it to be a delicate case, with little chance of recovery, but careful surgery and treatment have availed so much that the patient is considered out of danger. Ryan is well known in this city, having been located here for a time.

Base Ball.

LOUISVILLE, Ky., Aug. 19.—President Phelps was seen yesterday regarding the rumor sent out from New York to the effect that the Louisville, St. Louis and Athletic clubs would desert the American association or the Players league. He said "there is nothing whatever in the report so far as this season is concerned. It is utterly without foundation. At the directors' meeting last week, the subject of amalgamation with the brotherhood was not mentioned."

Knights of Pythias.

READING, Pa., Aug. 19.—The grand lodge Knights of Pythias, of Pennsylvania, met in annual session here to-day, the meeting to continue four days. About 500 people were in attendance. The report shows that there are 127,713 Knights of Pythias in Pennsylvania, an increase over last year of 2,132. The 2,120 lodges in the state have paid out for the relief of brother knights and for burials \$218,681.

Foreign.

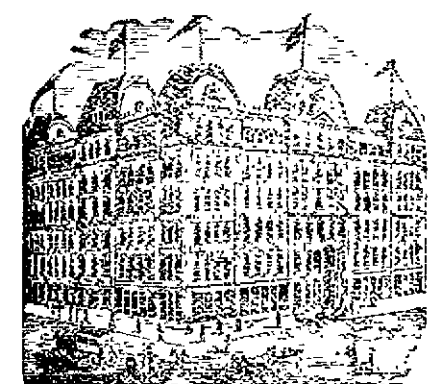

NARVA, Aug. 19.—Last evening a fete was given to the townfolk in honor of the visiting emperors. The city water falls were illuminated.

LONDON, Aug. 19.—Justice Naish is dead.

LONDON, Aug. 19.—The potato blight in Ireland has extended to several districts in Mayo and Leitrim.

Everything Goes Wrong.
In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, contamination of the blood, imperfect assimilation are certain to ensue. But it is easy to prevent these consequences, and remove their cause, by a course of Hostetter's Stomach Bitters, which stimulates the urinary organ and regulates its action. The direct result is a disappearance of the pains beneath the ribs and throat, the shoulder blade, the nausea, headache, yellowness of the skin, flurried look of the tongue, and sour odor of the breath, which characterize liver complaint. Sound digestion and a regular habit of body are blessings secured by the use of this celebrated restorative of health, which imparts a degree of vigor to the body which is its best guarantee of safety from malarial influences. Nervous weakness and over-tension are relieved by it, and it improves both appetite and sleep.

Will it rain? Oh, let it rain! All nature is calling for it.

PRESIDENT HARRISON will be fifty-seven years old to-morrow.

The Northern Indiana fair will draw a large crowd of people to this city.

The political conventions of the state are rapidly approaching and then the campaign will be upon us.

Huntington is indulging in Sunday base ball playing. The game last Sunday ended in a row and a fight.

The candidates for state offices before the two political conventions are doing some pretty tall electioneering just now.

The Gazette and Journal are indulging in a bitter personal war of words. Nobody wants to read such stuff. Better quit it, gentlemen.

The Northern Indiana and Southern Michigan soldiers' reunion, which is to be held at Goshen September 22, promises to be an affair of national interest.

The southern Indiana fish commission has offered a reward of \$25 for the conviction of any person guilty of violating the law for the protection of fish.

The strike in New York state remains unsettled. Labor difficulties are piling themselves up pretty thick and fast under the present presidential administration.

It is said that the recent rain throughout Illinois, Iowa and other states has materially benefited the corn crop, and that the yield of potatoes will be larger than was expected.

The Peru Daily Sentinel, a new venture issued by F. D. and F. A. Haimbaugh, is a welcome visitor to our exchange table. The paper is bright and newsworthy and deserves the best support of the people of Peru.

There is a prospect that somebody will make a mint of money out of Stanley's lectures in America. The lecturer and his wife will be carried from point to point in a palace car now building for that special purpose. Meanwhile Herbert Ward, whose lectures in this country were interrupted by his marriage, has given up a cherished plan to extend his lecture tour to Australia and south Africa.

The Indianapolis Sentinel charges that Attorney General Michener has been drawing from the state treasury \$2,400 a year for deputy hire and office expense, when the law authorizes him to draw only \$600. The law provides that the attorney general shall have \$600 a year for a copyist, while Mr. Michener, it is claimed, has regularly employed a deputy at \$1,500 and a clerk at \$900 per annum.

The meeting of the Labor day committee of the Labor unions of Indianapolis, at that city, Sunday afternoon, was enlivened by the withdrawal from participation in the big parade of Bricklayers' union No. 3. This action was caused by charges on the part of the Bricklayers' union that the Labor day demonstration was a political affair and the reputation of them in warm terms by the union in Sunday's meeting.

The United States senators want the drinking saloons removed from the senate wing of the capitol. Vice president Morton finds that they are too convenient for the republican members. The democratic members do not drink, and hence have no occasion to visit places where intoxicating liquors are kept.

SPEAKING OF Mrs. Grover Cleveland's diamonds, the Pittsburg Dispatch estimates their value at \$50,000. On the day of her marriage she received a magnificent ring and a necklace of solitaires from her husband, and diamond pins for her hair from Secretary and Mrs. Whitney, but the first diamond ring she ever possessed was given her by one of her Buffalo friends. It was a tiny little star of diamonds, and she wore it upon her little finger the day she became Mrs. Cleveland. Since this time, upon birthdays and at Christmas, Mr. Cleveland has always presented his wife with diamonds.

The single tax men of New York city are astir with preparations for the reception of Henry George, who will arrive from Europe within two weeks. On his return arrangements for the national single tax convention will be completed. It is expected that the convention will be called to order on Sept. 1. The gathering will, from present appearances, be a representative one. Representatives of all the organizations of the United States will attend. It is said that 500 delegates will be present and that every state and most of the territories will be represented. The single tax men claim that the Knights of Labor and Farmers' alliance are in pronounced sympathy. Over one hundred thousand men, they say, are actively engaged in presenting to the public the single tax theory. At the coming convention the delegates will discuss the best means to be adopted to bring about free trade. The sessions will be held at Cooper Union.

The following are the best twenty-five cities in Indiana given in the rank of population, beginning with the largest and best census estimates: Indianapolis, 110,000; Evansville, 51,500; Fort Wayne, 39,000; South Bend and Terre Haute, 22,000 each; Lafayette, 16,245; Richmond, 15,500; Logansport, 13,500; Elkhart, 11,408; Muncie, 11,144; Anderson, 10,887; Michigan City, 9,000; Marion, 8,970; Huntington, 8,755; Kokomo, 8,555; Brazil, 8,000; La Porte, 7,200; Gosport, 6,000; Crawfordsville, 5,972; Valparaiso, 5,500; Aurora, 4,580; Bloomington, 4,400.—Last Thursday's Sentinel.

In reply to the above Mr. F. M. Hatch writes us from Petoskey, Mich., as follows: "As a member of the fraternity I ask your attention to the following towns. It may be you have given the towns in the order of percent, of increase, but in that case a number of gas towns would stand better than the first three Indiana towns: New Albany, 20,000; Vincennes, 10,000; Madison, 10,000; Peru, 9,000; Wabash, 7,000; Frankfort, 7,000; Greencastle, 6,000. These estimates are not exact, but approximate. Still I am sure the towns should be looked up and given in the present enumeration, and the seven named by me will outnumber the last five in your list." We gladly include the cities named in our list. Some of them were omitted by mistake and we thank Mr. Hatch for his correction.

FRANK J. HEALY
Is Now Managing Editor of the Sunday Times at Cleveland.

Few of the old time newspaper men in this city were better known than Frank J. Healy. He was at one time city editor of THE SENTINEL, and afterward on the Gazette and News. He was a brilliant writer, won fame in this city, where he was married, and was a general favorite among his large circle of friends.

He left here and went to Columbus, O., where he took an editorial position on one of the papers there. From there he drifted to Cleveland, and he is now managing editor of the Sunday Times, a bright, newsy and brilliant paper. Mr. Healy is a man whose talents fit him for any position in journalism, and THE SENTINEL is glad to hear that he is prospering.

LOCAL LINES.

Miss Lorena Stahl and mother left for Niagara Falls yesterday.

The college year of Taylor university opens on the second day of September.

Misses Mamie and Kitty Laughlin, of 49 East Lewis street, have returned from Toledo.

Miss Clara Lordier has returned from a few months visit with friends at Chicago and Valparaiso.

Miss Ellen Spencer, of Root & Co.'s store, is enjoying a vacation among friends at Burlington, Iowa. She expects to be absent several weeks.

Dr. W. H. Myers leaves Berlin, Germany, August 30, for home, after attending the meetings of the International and British Medical congresses.

Will Gordon and Charlie Beuret are peers in the science of rowing a boat. Last Sunday they were escorts to Misses Agnes Tiernan and Katie Fox and they had a delightful boating up the St. Joe.

William Koch, of Washington township, while hauling gravel for grading the Huntertown road, met with an accident yesterday which will keep him from work for some time. A bank caved in, and Mr. Koch was almost buried beneath the heap.

The Bluffton Begle says: "Mrs. Fred Koopman went to Fort Wayne this morning, taking her daughter Mary, to enter the Lutheran school in that city. S. A. Shoemaker was home from Fort Wayne to spend Sunday. He has secured the position as principal of the Vera Cruz schools. Brooks Sale, of Fort Wayne, is a visitor at his uncle's, James W. Sale."

The Lafayette Courier says: "Rev. A. Gutmacher, of Fort Wayne, was in the city to-day the guest of Rev. J. Cadden, consulting for the purpose of organizing an association which shall include the rabbis of this and the adjoining states.—Mrs. James Murdoch was only temporarily benefited by her European trip, and her condition is again such that her family and friends are much alarmed."

Last Saturday a lease was filed in the recorder's office by virtue of which the Fort Wayne Electric company came into conditional possession of a portion of land to erect an addition to its works. This is the land over which there is now a controversy. The lease was effected when THE SENTINEL first mentioned it a couple of weeks ago, but the document has just been recorded. It is reminding of the Wabash difficulty, which remains unsettled.

Gazette: "About two years ago Mrs. Katherine Miller, of East Washington street, had a fall by which she suffered a dislocation of the ankle and a broken leg. At the time of the injury she was advised to have an amputation performed, her old age being against osseous adhesion of the broken member. She refused to have the operation performed and the wound has remained unhealed. It is now found that the bone is sloughing off and pieces are working out through the flesh. The physicians say that only an amputation can now save her life."

The Huntington Daily Herald says: "There came near being a Fort Wayne Sentinel compositor loss, last Saturday night. Harry Drummond was entering the city on the 9 o'clock train, and at the C. & A. crossing he decided to dismount and take a 'short cut' to the Arlington House. He apparently shut his eyes and taking a leap in the dark before the train stopped met a fall that was terrible any way it might be considered. His head struck some hard substance and received a gash back of the ear that laid bare the skull and made a serious wound. A physician rendered him medical aid, and he will probably suffer no evil consequences."

Professor Frank Conrad, of Pierceton, Ind., was in the city last evening. Mr. Conrad is a young man of brilliant musical attainments, and has for the last few years been a musical instructor in one of the leading colleges of the west. He leaves next week for Leipzig, Germany, to remain for a year attending the Royal College of Music, one of the famed institutions of the world. He will take special instructions on the piano and organ, and although he is a magnificent musician now, will return, no doubt, better fitted than ever for his profession, to which he is wedded. He will bear letters of introduction from prominent men of this city to Prof. Dietrich, the American consul at Leipzig.

Vanity is called a discreditable passion.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

MADE BY SPECIAL PROCESS--THE BEST.
Cocoa is of supreme importance as an article of diet. Van Houten's has fifty per cent. more flesh-forming properties than exist in the best of other cocoas.

Van Houten's Cocoa

"BEST & GOES FARTHEST."
The tissue of the cocoa bean is so softened as to render it easy of digestion, and, at the same time, the aroma is highly developed.

25-VAN HOUTEN'S COCOA ("once tried, always used") is the original, pure, soluble Cocoa, invented, patented and made in Holland, and is to-day better and more valuable than any of the numerous imitations. In fact, a comparative test will easily prove that no other Cocoa equals this inventor's in solubility, agreeable taste and nutritive qualities. "Largest sale in the world." Ask for VAN HOUTEN'S and take no other.

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb. We now offer Best Extra C., 5c. Best Standard A., 6c. Powdered and Crushed, 7c. Granulated and Cut Leaf, 7c.

COFFEE, COFFEE—Rio, Java, Mocha and Roasted Coffee.
There has been little change in the Coffee Market the last three months. It is too high yet. The elague has control of the market and keeps prices up. We still sell our best Rio at 22c. lb. This we are enabled to do in consequence of our large purchases and selling direct to our customers—in this way saving the profit of the jobber and wholesale merchant.

Best Rio Coffee, 22c. lb. Choice O' Govt. Java, 28c. lb.
Best Green Mocha, 30c. lb. Roasted Rio, 25c. lb.
Best Roasted Java, 33c. lb. Best Roasted Mocha, 35c. lb.
Sampson Brand in Packages, 26c. Jersey Coffee in Packages, 26c.
Durham Coffee in Packages, 26c. Levering's Coffee, 26c. lb.

TEAS, TEAS—Young Hyson, Oolong and Japan.
The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.
Young Hyson Tea, 20c., 30c., best, 50c. lb.
Oolong Tea, 30c.; best, 50c. lb.
Imperial Tea, 20c.; good, 30c.; best, 50c. lb.
Gunpowder Tea, good, 30c.; best, 50c. lb.
Japan Uncolored, good, 30c.; best, 50c. lb.

CANDIES REDUCED 2c. POUND.
This is owing to the decline on Sugar, which has necessarily affected Candy. Pure Stick Candy, 10c. lb. French Mixed Candy, 10c. Chocolate Drops, 15c. lb. Fancy Bon Bons, 15c. and 20c. lb. Cinnamon Imperials, 15c. lb. English Walnuts, Brazil Nuts and Soft Shelled Almonds, 12c. and 15c. quart.

What do doctors know about corsets?

They know a good deal more sometimes than they dare give their patients the benefit of!

What are they afraid of? Losing their patients.

Many a woman would throw her doctor overboard sooner than change her corset.

What do women know about corsets?

The doctors and women together know all there is to be known. They all agree that Ball's is the proper corset.

You can go to your store and get it and wear it two or three weeks and get your money again, every cent of it, if you want it.

The store has a primer on Corsets for you.

One of the mechanics on the Pennsylvania lines is working on a device by which coal will be fed into the fire-box of a locomotive in the same manner that a base burner is fed. It is claimed that if the device is perfected it will greatly increase the heat in the fire-box, as no cold air will rush, as is the case when the door of the fire-box is opened to throw in coal.

There is good authority for stating that the officials of the Pennsylvania lines west of Pittsburg are seriously considering the question of making two cents per mile the rate on all classes of tickets, and should any of the competitors make two cents a mile the one-way rate to parties of less than five it is said that it will only hasten the Pennsylvania in making two cents per mile the rate over its entire western system.

Martin Deamer, of the tire department of the American wheel works, met with a very painful accident yesterday afternoon while at work. He was welding a buggy tire on an anvil when a part of the hot borax he was using splashed into his eye. It was some

time before it could be got out and the ball of the eye was badly burned. The accident, while not serious, is very painful and he will be kept from duty for several days.

Heretofore the one-way party rates were made to ten or more people. Today the Pennsylvania road places them on sale to parties of seven or more. Some of the roads don't like this idea of dropping below ten and say there is no necessity for the break on the part of the Pennsylvania company. They say it is unnecessary, as theatrical companies, for which the rate is chiefly intended, are never composed of less than ten people. The Pennsylvania, however, has its eye on numerous concert companies, glee clubs and small theatrical companies. Last year this road lost all theatrical business by refusing to sell one-way party tickets.

AMERICAN PASSION FOR BALL.

How the Big Fools, Women and Men, Become Excited.

Sam King, of Geneva, in a Chicago Tribune interview, says: "It is astonishing the passion which Americans have for a ball. I can understand the craze for the game; I've had that myself. But the sight of a ball seems to make an American anxious to grab it. In my vicinity are people whose names appear about as often in the society columns as anybody's. In the evenings (shades of Willie Astor!) they sit out in front of their homes, women and girls, and old men, most of them. Two boys get out on the road and pitch ball. You know how they do it. You've seen them do it a thousand times. Now you would think that two boys pitching a ball could take care of the ball, wouldn't you? But the folks in the neighborhood don't think so. One boy throws the other boy the ball. The other boys fail to catch it and the ball rolls away about forty feet. The boy to whom it was thrown doesn't run after it. Why? He knows somebody else will do that. The old man sitting on his veranda, who walks about the house on a cane when his wife is around, jumps from his chair, runs down the road, picks up the ball, and throws it to the waiting boy. I saw a man stop his team one day to get down in the road and pick up a ball for a boy. Two boys were throwing ball near my house the other day. The ball went over a high fence on one throw. I had been moving my lawn. I was over the fence in a jiffy and found the ball. I am just as big a fool as any old man in my section. The women aren't any better. I've seen women leave their children to pick up a ball. But a woman can't throw a ball worth shucks. But it seems to do her good to pick it up and hold it until the boy comes and gets it."

INDIANA'S FINANCES.

They Have Been Ably and Mostly Managed by the Democrats.

(Interview with ex-Gov. Gray in Cincinnati Post)

"I don't think there is a state in the Union that has had a more economical administration of affairs than Indiana. So far as the management of state affairs is concerned, the democratic party has had nothing to fear in the contest. There is a state debt of \$8,000,000, but something over \$4,000,000 of that was created by the republican party during the administration of Morton and Baker, when the republicans had control. The republicans used the sinking fund to that extent, and issued non-negotiable bonds paying six per cent. interest. The last legislature passed a bill authorizing the refunding the state debt at a lower rate of interest, and it has been refunded at less than three per cent. I recommended it, while governor, in my message to the legislature."

"The democrats have increased the state debt, but that was caused by the construction of three additional hospital buildings,—one at Richmond, one at Logansport and one at Evansville—at a cost of \$1,500,000. And there were other public improvements among them, the soldiers' orphans' home, at Knights-town; the institution for feeble minded children, at Fort Wayne; the soldiers' and sailors' monument, at Indianapolis; and the re-building of the normal school, at Terre Haute."

"Yes, the tax the levy has never been increased. It is twelve cents on the \$100 and has been that since 1887. The democrats can show improvements costing every dollar, and more too, for the increase of the public debt under their administration, but the republican party can show nothing whatever in the way of public buildings or other improvements for the \$4,000,000 of the state debt created by them."

"The democratic party is the author of every public institution in Indiana, and has a record of administration of state affairs it is proud of, and can successfully defend before the people. The republicans had full control in 1881, with both branches of the general assembly and the governor, but made the poorest record that had been made for years. About the only thing the republican administration of that year did was to enact a law authorizing aliens to purchase and hold real estate in Indiana, and it was promptly repealed by the next democratic legislature. Under that law foreigners could have bought up all the land in Indiana and would have been willing to sell. I recommended that repeal in my inaugural address."

Jewelry Stolen.
St. Louis, Aug. 18.—Superintendent Fuller, of the Missouri Pacific railroad, received a telegram from D. K. Johnson, district superintendent at Kansas City, in which it is stated that three packages of jewelry, consigned from St. Louis, three packages containing about \$75 and two railroad packages, were all that the robbers secured. Mr. S. O. Rider, of St. Louis, the consignor of the jewelry, said that packages were sent to Nebraska City, and contained jewelry valued at \$100.

Struck by a Cyclone.
WHEELING, W. VA., Aug. 18.—A cyclone struck the town of Belmont in the center of the New Dureka coal fields, on the Ohio river, between this city and Parkersburg, yesterday, and did damage to the amount of several thousand dollars. No lives were lost.

"Don't Care to Eat."
It is with the greatest confidence that Hood's Sarsaparilla is recommended for loss of appetite, indigestion, sick headache, and similar troubles. \$578,345.00

Dec 29 1889

CERTIFIED THROUGH New York Clearing House, N. Y. A.

E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life Ins. Co. with the annuity feature added. Each policy was for \$100,000 and the insured also elected to make but one payment, thus commencing the cost. The insurance covered by the above mentioned premium payment of \$378,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and four members of his family. Mr. Theo. Havemeyer, is the American Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son in law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected the Mutual Life Insurance Co. offering more advantages and greater security than any other form of investment. Second, that they had such faith in the management and stability of the Mutual Life Insurance Company of New York, that they willingly entrusted to its care nearly \$600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of \$378,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in mercantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that isn't an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

BIG BOMB SHELL!

Expected to Explode in the Camp of
the Strikers—Webb's Demand
Attitude.

ALBANY, N. Y., Aug. 19.—This was
the quietest day of the strike yet, and
the strikers, while gathering in their
regular places were very reticent. One
of them said: "We are waiting for
something, and when that something
comes it will be the biggest bomb shell
that has exploded yet."

A large mass meeting is called for this
evening at the Public market, Hudson
avenue and Grand street, to protest
against the action of Pinkerton and his
men.

The knights-to-day issued the follow-
ing bulletin: The railroad people claim
that they are rapidly breaking the
blockade and that their freight will be
all moving regularly inside of three
days. The West Albany yards were
emptied again this morning by the re-
turn of twenty of the new men to go to
work. The Pinkerton men have in a
great measure been withdrawn and the
city police are doing splendid work.

Headquarters D. A. 346, Knights of
Labor, Albany, 10 a. m.—All solid along
the lines. Advice received as follows:
Buffalo—A large and enthusiastic meet-
ing of Lake Shore and Michigan South-
ern railroad employees are now gather-
ing at the hall of the Knights of
Labor to discuss the situation and take
action. Brother Devlin, of the general
executive board, and others will address
them. Rochester—Everybody firm in
Rochester. Lookout—The striking
switchmen marched in a body from the
Labor hall last evening and proceeded
to the sheriff's office and offered their
services as deputy sheriffs and pre-
sented against the appointment of Pink-
erton detectives. Hundreds of knights
observed the procession.

POWDERY TALK.
New York, Aug. 19.—Mr. Powderly
is at the St. Cloud hotel. When asked
by a reporter about the trouble he said:
"Matters connected with the New
York Central trouble have reached a
most serious and critical point and one
that will interest the people of this
country more than they imagine at the
present time. I do not mean to say
that there will be a general strike and
I do not deny it. There will be a meet-
ing to-day of the general executive
board of the Knights of Labor, which
will be attended by the representatives
of the trainmen, firemen, switchmen
and conductors and at that meeting
final action will be taken."

LOOKS TERRIFYING.
BUFFALO, N. Y., Aug. 19.—There is
but little change to be noted either in
the strike situation or the condition of
the Central freight traffic this morning.
The new yard now brought from the
east are slow at getting acquainted with
the yards, and are awkward at the work.
Several have had narrow escapes from
being injured. A Boston man named
Gino, was thrown from the top of a car,
this morning, and narrowly escaped be-
ing killed. This is considered by the
strikers to be the vital day, and all eyes
are turned anxiously toward New York,
where the head man of the great labor
federation are in council.

A largely attended meeting of switch-
men and knights was held this morning
and was addressed by John Devlin and
District Master Workman Leo. Chas.
H. Trenholm, grand president of the
Steam Railroad Men's Protective Asso-
ciation of New England, is expected
here to-day. Mr. Lee received a cipher
message from Trenholm last night, the
contents of which have not been di-
vulged, but a leading striker says there
is every probability that the members of
that body will go out if the Central
trouble is not settled in a day or two.
The Knights of Labor firemen on the
lake boats are prepared to go out if any
attempt is made to handle non-union
freight by that route.

Railroad men who have been talked
with frankly admit that at no time since
the strike began has the outlook been so
ominous as now. All concede that the
probabilities are that by to-morrow
night the strike will be ended or it will
spread to about all the branches of the
operating department, and if need be to
the other roads in the Vanderbilt sys-
tem. Before leaving for New York last
night Grand Master Sweeney had a con-
ference with Superintendent Seabert, of
the Delaware, Lackawanna and Western
road, and it is said it was agreed be-
tween them that that road would keep
its hands off the Central freight.

WEST ALBANY, N. Y., Aug. 19.—Late
yesterday the Flakerton people here
telegraphed their New York and Phila-
delphia officers to stop hiring men and

not to send any more men to this point.
The police here are in sympathy with
the strikers and all daily refused to do
anything to protect the Central's prop-
erty. This was the reason for hiring
Pinkerton men. Further trouble is ex-
pected here to-morrow.

New York, Aug. 19.—Mr. Powderly
and Secretary Hayes arrived here this
morning at 8 o'clock from Buffalo.
Grand Chief Sargent, of the federation
of railway employees, R. E. Wilkinson,
of the trainmen's association, Chairman
General Howard, of the railway conduc-
tors' association, and Grand Master
Sweeney, of the switchmen's association,
are at the Grand Union hotel. On all
sides rumors are flying, and important
developments are hourly expected.
Vice-President Webb was at his office
bright and early this morning, and
seems as determined as ever to fight the
knights.

WEBB'S DEFIANT ATTITUDE.
Mr. Webb said to a reporter of the
United Press: "For the past few days
I have been making arrangements to get
a new force of firemen in case those on
the road go out and I have so far suc-
ceeded that any delay from that cause
will only be temporary. I have enough
assurance from the firemen on my road
to convince me that in case they are
ordered out a number of them will not
go. Then, if necessary, I will stop every
particle of freight traffic, close up every
yard and keep them closed until I have
obtained a sufficient number of new fire-
men to resume the freight traffic. I
think I can accomplish within forty-
eight hours, as I have a long list of men
who will come at the wages we will
pay." In conclusion he said: "My
road will expend \$2,000,000 and in this
I am backed up by the stockholders." Up
to 11 o'clock no meeting of the labor
leaders had been held.

THE STRIKE.
BUFFALO, N. Y., Aug. 19, 1 p. m.—
A director of the New York Central is
authorizing for a statement just given out
that Superintendent Burrows has been
ordered to take all his men back, and
that the strike is at an end.

Supt. Burrows, shortly after noon to-
day, received a dispatch from General
Manager Touney, in New York, order-
ing him to reinstate the men now out on
a strike. This ends the strike so far as
Buffalo is concerned. It is understood
that the news was entirely unexpected
by Mr. Burrows.

A United Press reporter made an
effort to see Superintendent Burrows
upon the announcement of the report.
Mr. Burrows sent word that he was in
communication with New York and did
not wish to say anything just then but
would have a statement later.

DEFENSIVE ACTION.
New York, Aug. 19.—At 2 p. m. Mr.
Powderly said that there would be a
meeting of the general officers interest-
ed in labor organizations with the
executive board of the Knights of La-
bor, at the St. Cloud hotel at 3 p. m. to-
day. He intimated that the meeting
would be decisive. No communication
has been sent to Mr. Webb.

OTHER TROUBLES.
DANVILLE, Ill., Aug. 19.—The Chi-
cago and Eastern Illinois and the Ohio
and Indiana railroads are laying in full
supplies and making other arrange-
ments for a strike of their engineers,
firemen and trainmen, which is likely to
occur this week. The men want higher
wages and more extra time on the run
between Danville and Chicago. They
will have a final audience with Presi-
dent Porter in Chicago next Friday.

BIRMINGHAM, Ala., Aug. 19.—The
master workman of the Knights of La-
bor in Alabama, has written a letter to
the secretary of district assembly 49, of
New York city, in which he says the
order is rapidly going to pieces in Ala-
bama. He gives as reasons for the
break up of internal dissensions in the
order, bad management and unwise
strikes.

A Terrible Accident on a Railroad in
Massachusetts.
Boston, Aug. 19.—At 1:30 this after-
noon a car for surgeons and ambulances
was received at police headquarters in
Boston, on account of a serious accident
on the Old Colony railroad, at Braintree.
It is reported that eight persons
besides the engineer and fireman were
killed, and twenty persons injured.

The accident occurred at one o'clock,
near President's bridge. The engine
toppled over and the first car fell on top
of it, setting fire to the train.

The accident happened to the Cape
Cod and Woods Hole train on the Old
Colony road at Quincy. The nature of
the accident is not known, one report
being that the train jumped the track.

A WOMAN OF NERVE!

She Murders Her Husband's Political
Opponent at a Fair and Then
Escapes Arrest.

BROWNSVILLE, Tex., Aug. 18.—County
Judge Max Stein, of Hidalgo county,
and a wealthy and leading merchant of
Edinburg, Texas, was shot and killed
Sunday night in Brownsville, Mex., by
Mrs. Delia McCabe, of Corpus county,
Texas. The murderess is the wife of
ex-County Judge McCabe.

Judge Stein, with his wife and
daughter, were in attendance at the
fair at Brownsville and the shooting was
done in their presence. Mrs. Stein, as
her husband fell dead, sprang towards
the murderess, but was felled with a sav-
age blow on the temple with the barrel of
the pistol. The chief of police, who
rushed up to her, was also knocked down
and then, like a lioness at bay, she
brought her ready revolver down upon
the policeman, who came up, and defied
them to arrest her. Some cavalry men
finally crept behind the woman, and af-
ter a desperate struggle succeeded in
disarming her.

The affair grew out of election
trouble, McCabe being unseated as
county judge, and Stein selected to suc-
ceed him. McCabe, aided by a party of
friends, tried to forcibly capture the
court house, and failing, fled to Brown-
sville. It is stated that letters were writ-
ten to Corpus county, where the Mc-
Cabe's formerly lived, to get their re-
cords. Mrs. McCabe heard of this and
swore vengeance on her husband's suc-
cessor.

IN A BAD STATE.
The War in Guatemala is Dis-
cussed in All Classes.

New York, Aug. 19.—A special from
Guatemala, dated August 17, via City
of Mexico, says: United States Minister
Miner returned here Saturday evening
from La Libertad, having come to
San Jose on the United States steamer
Thetis. He says he will investigate the
complaints about his telegraphic corre-
spondence which have recently been
made. He expresses himself as very
much pleased with his treatment by the
Salvadorians, but has nothing to say
about the result of the trip. Unless
Mr. Miner breaks his guarded silence
the causes of a number of recent trou-
bles will not be explained, as it is
thought he knows more than he is wil-
ling to divulge.

Consternation continues in this city.
All necessities of life are sold at fabu-
lous prices. Commerce is very much
depressed. Merchants have sent orders
to the United States and Europe, out-
standing and delaying shipments on all
goods ordered. By this course the
effect of the war in felt by all classes,
and it continued will be the means of
wrecking the commerce of the country.

PEACE HAS COME.
SAN SALVADOR, Aug. 19.—Provisional
President Ezeta has just received a tele-
gram from Dr. Galindo, the confidential
agent of Salvador now in Guatemala,
saying that the terms of the treaty had
been arranged. Dr. Galindo says in
his dispatch that the treaty is most
favorable to Salvador. All the points
demanded by Ezeta have been conceded
by the Guatemalan government.

Dr. Galindo will leave the city of
Guatemala for this city to-morrow to
arrange the terms of the protocol.
Owing to the receipt of this news Presi-
dent Ezeta has revoked the orders to his
army to advance toward the city of
Guatemala and consequently there has
been an entire cessation of hostilities.

Nicaragua and Costa Rica had de-
cided to become the allies of Salvador
and had pledged themselves to do all in
their power to help Ezeta. Honduras
had, as was known several days ago,
promised to become the ally of Guate-
mala.

AT THEIR RETREAT.
Eighty Friends of This Diocese at
South Bend.

SOUTH BEND, Aug. 19.—The priests
of the Fort Wayne diocese entered into
their biennial retreat at Notre Dame
last evening. It will continue for one
week. There are about eighty priests
in the diocese. The Very Rev. Father
Wayright, C. S. B., presides the retreat
sermon, and the Very Rev. Vicar-
General and Administrator Brammer,
of Fort Wayne, in the absence of Bishop
Dwenger, will preside.

KILLED IN A WEEK.
ASHLAND, Wis., August 19.—A wild
freight on the Wisconsin Central rail-
road yesterday collided with a stray
load car, which had blown on to the
main track at Glidden, wrecking the
engine and seven cars. The brakeman,
James W. Kintley, was killed, and Engi-
neer Dowdell and a fireman injured.

in Behring Sea—Vigorous
Measures Adopted.

TACOMA, Wash., Aug. 19.—The re-
venue cutter Corwin on Saturday re-
ceived orders to proceed to Behring
Sea and in now on route to Seattle to
coil. Captain Hooper says he has
orders to act under the first instructions
received. The first orders directed the
captain of the cutters to seize all ves-
sels where there was any circumstantial
evidence to show that they had been
poaching. The subsequent orders were
that the cutters should serve all vessels
found in the sea with a copy of
President Harrison's proclamation,
and if the vessel was seen
again to capture it. The
department, Captain Hooper's
orders lead one to believe, has deter-
mined that the more vigorous policy
should be followed, and, although it is
late in the season, all vessels found
poaching are to be summarily dealt
with.

DID NOT PAY ITS PRIZE.
Officers of a Lottery Company Leave
Massachusetts City with \$100,000 of
Their "Sweep" Money.

KANSAS CITY, Aug. 19.—The Denver
Lottery company, which recently
opened headquarters in Kansas City,
Kan., has vacated its office, and its
officers have fled the town after having
received \$100,000 by the sale of tickets,
leaving all prizes unpaid.

The company was driven out of Den-
ver, Col., a month ago, and went to
Kansas City, B. F. Rhodus assuming
charge of the office. Eight drafts drawn
by prize winners from various parts
of the country have been received by the
local bank for collection. Chief of
Police Pearson says the officers of the
company got away with fully \$20,000.
Warrants have been sent out for the
arrest of Rhodus, charging him with
having used the mails fraudulently and
with having received money under false
pretenses.

MAKING MONEY
By the Sale of Articles for Immoral
Purposes, but Arrested.

DES MOINES, Iowa, Aug. 19.—A sen-
sation was created here by the arrest by
United States Marshal Eldridge, of Miss
A. L. Smith, on a charge of using the
mail for circulating obscene literature
in the form of advertisements of articles
for immoral uses. The young woman
is respectably connected, and has heretofore
been in reputable society. She
has been carrying a successful business
for some time, her advertisements ap-
pearing in a number of reputable con-
sumer papers. Her circulars and pro-
posals were made to both sexes, and she
claims to have sold to ladies \$3,000
worth of her various preparations. She
makes no attempt at concealment, and
claims she was doing a legitimate busi-
ness. She gave bonds to appear before
the next federal grand jury.

THE ATHLETIC CLUB.
PHILADELPHIA, Aug. 19.—The Phila-
delphia Brotherhood club, it is said, are
about to buy out the Athletic club of
this city. No actual negotiations to
this end have yet begun, but it is under-
stood that the Athletic stockholders are
willing to sell. The object of the
Brotherhood in purchasing the club will
be to get the use of the name and to
make the base ball situation in this city
less complicated. Calisher Robinson
and Third Baseman Lyons will probably
join the Brotherhood club in the event
of the purchase.

Natural Gas to Manufacturers.
PITTSBURGH, Aug. 19.—The Philadel-
phia company, which has a monopoly of
the business of supplying natural gas in
Pittsburgh and Allegheny, yesterday
gave notice of an increase of five per
cent in the price of natural gas to the
mills and factories. The company has
found it more profitable to sell gas to
private consumers than to places where
the consumption and waste are great
and their object is to make the large
concerns return to the use of coal.

FIRE AT LOGANSPORT.
LOGANSPORT, Aug. 19.—A fire last
night destroyed the large warehouse of
John Lux, in Shilltown, a suburban
village of this city, which contained 100
tons of hay, a large lot of farming ma-
chinery and grain, with six new bug-
gies, a lot of harness, etc. A house
and two stables adjoining the warehouse
were also destroyed. Loss, \$10,000; in-
surance, \$5,000. Lux has suffered
loss from fire three times within the
last five years.

Snow Fell.
DENVER, Col., Aug. 19.—A very light
snow fell in this city last night, the first
of the season.

QUAY NOT QUASHED.

The Election Bill Went on Over Until
December for Consideration.

WASHINGTON, Aug. 19.—Mr. Quay's
resolution providing for a vote on the
tariff bill on the 30th, and to postpone
till next December consideration of the
federal election bill and some other
matters, was laid before the senate this
morning. Mr. Hoar said he desired to
address the senate on the subject, but
would prefer to do so to-morrow. Mr.
Quay said he had no objection to the
resolution going over without prejudice
and with the understanding that it
would be taken up then; so the resolu-
tion went over till to-morrow.

Mr. Plumb's resolution offered yester-
day to prevent the sale of liquor in the
senate wing of the capitol was taken
up and Mr. Butler moved an amend-
ment directing the sergeant-at-arms to
make daily inspection of the committee
rooms and other apartments in the sen-
ate wing and to report to the committee
on rates whether he had found liquors
therein. Mr. Gorman wanted to refer
the resolution and amendment to the
committee on rules. Mr. Blair said
something about making a four-hour
speech on the resolution rather than
have it referred to the committee on
rules and defeated by delay. Mr. Gor-
man at once withdrew his motion for
reference and the resolution went over
until to-morrow.

The tariff bill was taken up, the pend-
ing question being on Mr. Plumb's
amendment reducing the duty of tin
plate from two to one cent per pound
and allowing a bounty of one cent
on American tin plate. Upon a
request for a division of the question,
the presiding officer, recognizing its
divisibility, decided it in the nega-
tive and therefore it could not be again
voted on in committee of the whole, the
vote would be taken on the bounty
clause, but this change in the condition
of the proposition was not acceptable to
Mr. Plumb and he withdrew the whole
amendment with the understanding that
he would offer it again in the senate.

An amendment offered by Mr. McPherson,
the effect of which would be to place
tin plate on the free list, was re-
jected.

Representative Kennedy, of Ohio, has
put in circulation an agreement to be
signed by the republican members of
the house pledging them to prevent the
tariff bill going to the president until
the election bill is passed by the senate.
He claims to have forty-nine signatures.

The house to-day tabled the motion
to reconsider the motion by which the
Mat McKay bill was passed. This finally
passed the bill. The bill to amend
the alien land law was taken up, discus-
sion and went over without action.

Mr. Cannon, from the committee on
rules, reported resolutions setting apart
to-day, Wednesday, Thursday and Sat-
urday and Tuesday and Wednesday of
next week for consideration of bills re-
ported from the committee of agricul-
ture. The first bill to be taken up in
the senate bill to aid agricultural col-
leges, the previous question to be out
of order after two hours' debate.

The next bill to be taken up shall be
the bill for the inspection of meals for
exportation, and voted on after two
hours' debate. Then the bill deferring
land shall be taken up and the previous
question ordered at 3 o'clock Wednes-
day. On the days specified the house
shall meet at 11 o'clock. The order
further provides for a morning hour
each day.

THE FIFTH EDITION.
BOSTON, Aug. 19.—James Jeffrey
Booth will undoubtedly be selected as
editor of the Pilot as successor to the
late John Boyle O'Reilly. Mr. Roche
is now one of the editors of the paper
and he and Mr. O'Reilly were the
staunchest of friends and co-workers.
Archbishop Williams, it is understood,
will purchase Mr. O'Reilly's interest in
the paper, thus giving him absolute
control.

FATEFULLY BURNED.
DECATUR, Ind., Aug. 19.—Mrs. John
Breit, the wife of a young farmer living
near this city, was fatally burned last
evening. She was alone at the house,
getting supper, when her clothes caught
fire from the kitchen stove, and before
she could summon aid all her clothing
was burned off, and the flesh horribly
roasted. The house also caught fire,
but it was saved. Her death is momen-
tarily expected.

LOOMS UP BIG.

About \$400,000 Spent in Fort Wayne
Buildings During the Past
Six Months.

Captain Charles Reese has compiled a
record of the estimated cost of build-
ings for which permits were issued from
January 1 to July 1, 1890. The per-
mits represent that for the period
named, buildings have been erected or
construction began amounting in worth
to \$383,840, all this within the corporate
limits. This amount does not show much
of an increase over six months last year,
\$365,005, but shows a decided growth
over the first six months of 1888, when
the cost of buildings amounted to \$237,-
775. Taking into consideration that the
suburbs are becoming thickly settled,
and the numerous buildings are practi-
cally in the city, the figures could no
doubt be raised to \$400,000.

CHURCH IN JAIL.
Are They Men and Wife?—News
From the Police Court.

Among the offenders called up before
the mayor this morning was a pair, a
man and a woman. They were slated
as "C. Church and Eliza Church,
drunk." They have been living in
"Nebraska," and the gossip says they
are not man and wife. The woman has
been taking in washing to keep herself
and the man who passes as her lord,
but she seems to relish the idea. Not
infrequently have these two burdened
themselves with a "boisterous" "jag,"
much to the irritation of neighbors, who
finally made a complaint. The rela-
tions of "Mr. and Mrs. Church" will be
further investigated, while they serve
an eleven days' jail sentence.

Louis Hamilton, a printer, was arrest-
ed by Officer Richter for intoxication.
Hamilton got bail for a prisoner yester-
day, and also, poor fellow, his thanks
came not by a similar favor to-day.
Oyrus Dams and John Malligan were
arrested by Officers Limoscopy and
Richter, and both are now in jail for
eleven days.

FOR FINGER.
Lawyer Charles F. Henderson in Jail
At Lacrosse, Wis.

Probably no individual ever came to
Fort Wayne and got so much notoriety
in so short a time as did Charles F.
Henderson, whose eccentricities are still
fresh in the memory of those who knew
his acquaintance. He is a lawyer, and
while he lingered in this city to defend
a number of offenders for petty larceny.
A letter from Lacrosse, Wis., says that
Henderson is in custody there for forg-
ing a name to procure eight dollars.
Fort Wayne attorneys who admired the
man's pluck and hustling ability, are
now asked to help him out of his pres-
ent difficulty.

WILL LIVE TO TELL IT.
Philip Ryan, Who Was Wounded at
Auburn, Will Recover.

Philip F. Ryan, who was stabbed at
Auburn, recently, will recover. The
man's abdomen was cut open and the
bowel perforated by a knife in the
hands of a man named Cronce, who is
now behind the bars. Dr. Greenwalt,
of this city, who was called into consul-
tation, knew it to be a delicate case,
with little chance of recovery, but care-
ful surgery and treatment have availed
so much that the patient is considered
out of danger. Ryan is well known in
this city, having been located here for a
time.

BASE BALL.
LOUISVILLE, Ky., Aug. 19.—President
Phelps was seen yesterday regarding the
rumor sent out from New York to the
effect that the Louisville, St. Louis and
Athletic clubs would desert the Ameri-
can association or the Players league.
He said "there is nothing whatever in
the report so far as this season is con-
cerned. It is utterly without founda-
tion. At the directors' meeting last
week, the subject of amalgamation with
the Brotherhood was not mentioned."

KNIGHTS OF PYTHIAS.
READING, Pa., Aug. 19.—The grand
lodge Knights of Pythias, of Pennsyl-
vania, met in annual session here to-
day, the meeting to continue four days.
About 500 people were in attendance.

The report shows that there are 427,
713 Knights of Pythias in Pennsylvania,
an increase over last year of 2,432. The
2,432 lodges in the state have paid out
for the relief of brother knights and for
burials \$218,584.

Foreign.
NARVA, Aug. 19.—Last evening a
fete was given to the townfolk in honor
of the visiting emperors. The city water
falls were illuminated.

LONDON, Aug. 19.—Justice Naish is
dead.

LONDON, Aug. 19.—The potato blight
in Ireland has extended to several dis-
tricts in Mayo and Leitrim.

Everything Goes Wrong.
In the healthy mechanism when the liver gets out of order, constipation, dyspepsia, accumulation of the blood, imperfect assimilation are certain to ensue. It is easy to prevent these consequences and remove their cause by a course of Hostetter's Stomach Bitters, which stimulates the biliary organs and regulates its action. The effect is a purgative of the blood, perfect assimilation of the food, and the liver is kept in a healthy condition. TO-NIGHT.
TRADES AND LABOR COUNCIL.—Meet to-night.
R. V. M. C. A.—Prayer meeting.
LOUGHS.—Fort Wayne, 12 K. of P.

WELL, IT RAIN! Oh, let it rain! All nature is calling for it.
PHRENETIC HANNIBAL will be fifty-seven years old to-morrow.

The Northern Indiana fair will draw a large crowd of people to this city.
The political conventions of the state are rapidly approaching and then this campaign will be upon us.

Huntington is indulging in Sunday baseball playing. The game last Sunday ended in a row and a fight.
The candidates for state offices before the two political conventions are doing some pretty tall electioneering just now.

The Gazette and Journal are indulging in a bitter personal war of words. Nobody wants to read such stuff. Better quit it, gentlemen.

The Northern Indiana and Southern Michigan soldiers' reunion, which is to be held at Goshen September 22, promises to be an affair of national interest.

The southern Indiana, fish commission has offered a reward of \$25 for the conviction of any person guilty of violating the law for the protection of fish.

The strike in New York state remains unsettled. Labor difficulties are piling themselves up pretty thick and fast under the present presidential administration.

It is said that the recent rain throughout Illinois, Iowa and other states has materially benefited the corn crop, and that the yield of potatoes will be larger than was expected.

The Peru Daily Sentinel, a new venture issued by F. D. and F. A. Hambaugh, is a welcome visitor to our exchange table. The paper is bright and new and deserves the best support of the people of Peru.

There is a prospect that somebody will make a mint of money out of Stanley's lectures in America. The lecturer and his wife will be carried from point to point in a palace car now building for that special purpose. Meanwhile Herbert Ward, whose lectures in this country were interrupted by his marriage, has given up a cherished plan to extend his lecture tour to Australia and south Africa.

The Indianapolis Sentinel charges that Attorney General Michener has been drawing from the state treasury \$2,400 a year for deputy hire and office expense, when the law authorizes him to draw only \$800. This law provides that the attorney general shall have \$800 a year for a copyist, while Mr. Michener, it is claimed, has regularly employed a deputy at \$1,500 and a clerk at \$800 per annum.

The meeting of the Labor day committee of the Labor unions of Indianapolis, at that city, Sunday afternoon, was enlivened by the withdrawal from participation in the big parade of Brooklyn's union No. 3. This action was caused by charges on the part of the Brooklynians' union that the Labor day demonstration was a political affair and the refutation of them in warm terms by the union in Sunday's meeting.

The United States senators want the drinking saloons removed from the senate wing of the capitol. Vice-president Morton finds that they are too convenient for the republican members. The democratic members do not drink, and hence have no occasion to visit places where intoxicating liquors are kept.

STEWART OF THE PITTSBURGH DISPATCH estimates the value at \$50,000. On the day of her marriage she received a magnificent ring and a necklace of solitaires from her husband, and diamond pins for her hair from Secretary and Mrs. Whitney, but the first diamond ring she ever possessed was given her by one of her Buffalo friends. It was a tiny little star of diamonds, and she wore it upon her little finger the day she became Mrs. Cleveland. Since that time, upon birthdays and at Christmas, Mr. Cleveland has always presented his wife with diamonds.

The single tax men of New York city are under with preparations for the reception of Henry George, who will arrive from Europe within two weeks. On his return arrangements for the national single tax convention will be completed. It is expected that the convention will be called to order on Sept. 1. The gathering will, from present appearances, be a representative one. Representatives of all the organizations of the United States will attend. It is said that 500 delegates will be present and that every state and most of the territories will be represented. The single tax men claim that the Knights of Labor and Farmers' alliance are in pronounced sympathy. Over one hundred thousand men, they say, are actively engaged in presenting to the public the single tax theory. At the coming convention the delegates will discuss the best means to be adopted to bring about free trade. The sessions will be held at Cooper Union.

The following are the best twenty-five cities in Indiana given in the rank of population, beginning with the largest and best census estimates: Indianapolis, 110,000; Evansville, 61,000; Fort Wayne, 49,000; South Bend and Terre Haute, 22,000 each; Lafayette, 16,245; Richmond, 15,500; Logansport, 13,500; Elkhart, 11,408; Muncie, 11,141; Anderson, 10,887; Michigan City, 9,900; Marion, 8,970; Huntington, 8,700; Kokomo, 8,650; Brazil, 8,000; La Porte, 7,500; Goshen, 6,000; Crawfordsville, 5,772; Valparaiso, 5,500; Aurora, 4,880; Bloomington, 4,400.—Last Thursday's Sentinel.

In reply to the above Mr. F. M. Hatch writes us from Pottery, Mich., as follows: "As a member of the fraternity I ask your attention to the following towns. It may be you have given the towns in the order of percent of increase, but in that case a number of towns would stand better than the first three Indiana towns: New Albany, 20,000; Vincennes, 10,000; Madison, 10,000; Peru, 9,000; Wabash, 7,000; Frankfort, 7,000; Greensburg, 6,000. These estimates are not exact, but approximate. Still I am sure the towns should be looked up and given in the present enumeration, and the seven named by me will outnumber the last five in your list. We gladly include the cities named in our list. Some of them were omitted by mistake and we thank Mr. Hatch for his correction."

FRANK J. HEALY
In Now Managing Editor of the Sunday Times at Cleveland.
Few of the old time newspaper men in this city were better known than Frank J. Healy. He was at one time city editor of THE SENTINEL, and afterward on the Gazette and News. He was a brilliant writer, won fame in this city, where he was married, and was a general favorite among his large circle of friends.

He left here and went to Columbus, O., where he took an editorial position on one of the papers there. From there he drifted to Cleveland, and he is now managing editor of the Sunday Times, a bright, new and brilliant paper. Mr. Healy is a man whose talents fit him for any position in journalism, and THE SENTINEL is glad to hear that he is prospering.

Miss Lorena Stahl and mother left for Niagara Falls yesterday.
The college year of Taylor university opens on the second day of September.
Miss Mamie and Kitty Laughlin, of 49 East Lewis street, have returned from Toledo.
Miss Clara Lovell has returned from a few months visit with friends at Chicago and Valparaiso.

Miss Ellen Spencer, of Root & Co.'s store, is enjoying a vacation among friends at Burlington, Iowa. She expects to be absent several weeks.
Dr. W. H. Myers leaves Berlin, Germany, August 30, for home, after attending the meetings of the International and British Medical congresses.

Will Gordon and Charlie Burel are poets in the science of rowing a boat. Last Sunday they were escorts to Miss Agnes Tierman and Katie Fox and they had a delightful boating up the St. Joe.

William Koeb, of Washington township, while hauling gravel for grading the Huntington road, met with an accident yesterday which will keep him from work for some time. A bank caved in, and Mr. Koeb was almost buried beneath the heap.

The Hinton Bangle says: "Mrs. Fred Koopman went to Fort Wayne this morning, taking her daughter Mary, to enter the Lutheran school in that city. S. A. Rheunacker was home from Fort Wayne to spend Sunday. He has secured the position as principal of the Vera Cruz school. Brooks Sale, of Fort Wayne, is a visitor at his uncle's, James W. Sale."

The Lafayette Courier says: "Rev. A. Guttmacher, of Fort Wayne, was in the city to-day the guest of Rev. J. Cadden, consulting for the purpose of organizing an association which shall include the rabbi of this and the adjoining states.—Mrs. James Murdoch was only temporarily benefited by her European trip, and her condition is again such that her family and friends are much alarmed."

Last Saturday a lease was filed in the recorder's office by virtue of which the Fort Wayne Electric company owns in conditional possession of a portion of land to erect an addition to its works. This is the land over which there is now a controversy. The lease was effected when THE SENTINEL first mentioned it a couple of weeks ago, but the document has just been recorded. It is ridiculous of the Wabash difficulty, which remains unsettled.

Gazette: "About two years ago Mrs. Katherine Miller, of East Washington street, had a fall by which she suffered a dislocation of the ankle and a broken leg. At the time of the injury she was advised to have an amputation performed, her old age being against successful adhesion of the broken member. She refused to have the operation performed and the wound has remained unhealed. It is now found that the bone is sloughing off and pieces are working out through the flesh. The physicians say that only an amputation can now save her life."

The Huntington Daily Herald says: "There came near being a Fort Wayne Sentinel's companion loss, last Saturday night. Harry Drummond was entering the city on the 9 o'clock train, and at the O. & A. crossing he decided to dismount and take a "short cut" to the Arlington House. He apparently shut his eyes and taking a leap in the dark before the train stopped met a fall that was terrible any way it might be considered. His head struck some hard substance and received a gash back of the ear that laid bare the skull and made a serious wound. A physician rendered him medical aid, and he will probably suffer no evil consequences."

Professor Frank Conrad, of Pierceton, Ind., was in the city last evening. Mr. Conrad is a young man of brilliant musical attainments, and has for the last few years been a musical instructor in one of the leading colleges of the west. He leaves next week for New York, and will sail from that city for Leipzig, Germany, to remain for a year attending the Royal College of Music, one of the famed institutions of the world. He will take special instructions on the piano and organ, and although he is a magnificent musician now, will return, no doubt, better fitted than ever for his profession, to which he is wedded. He will bear letters of introduction from prominent men of this city to Prof. Dietrich, the American consul at Leipzig.

MADE BY SPECIAL PROCESS—THE BEST.
Cocoa is of supreme importance as an article of diet. Van Houten's has fifty per cent. more flesh-forming properties than exist in the best of other cocoas.
Van Houten's Cocoa
"BEST & GOES FARTHEST."
The tissue of the cocoa bean is so softened as to render it easy of digestion, and at the same time, the aroma is highly developed.
22-VAN HOUTEN'S COCOA ("new trial, always used") is the original, pure, delicious cocoa, invented, patented and made in Holland, and is today better and more valuable than any of its numerous imitations. In fact, a comparative test will easily show that no other cocoa resembles Van Houten's in solubility, agreeable taste and nutritive quality. "Largest sale in the world." Ask for Van Houten's and take no other.

FRUIT HOUSE PRICES FOR 1890.
This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it impossible to purchase—so much so that Sugar were advanced in 60 days at least 50 per cent. This is now over. The price of Sugar is broken, and Sugar are declined to a point lower than they ever were—the last reduction is 1 cent per lb. We now offer Best Extra O. 5c. Best Standard A, 6c. Powdered and Crushed, 7c. Granulated and Cut Leaf, 7c.

COFFEE, COFFEE—Rio, Java, Mocha and Roasted Coffee.
There has been little change in the Coffee Market the last three months. It is too high yet. The oligue has control of the market and keeps prices up. We still sell our best Rio at 25c. This we are enabled to do, because of our large purchases and selling direct to our customers—in this way saving the profit of the jobber and wholesale merchant.
Best Rio Coffee, 25c. lb. Choice Old Govt. Java, 25c. lb.
Best Green Mocha, 30c. lb. Best Roasted Mocha, 25c. lb.
Best Roasted Java, 33c. lb. Best Roasted Mocha, 25c. lb.
Sampson Brand in Packages, 25c. Jersey Coffee in Packages, 25c.
Dunkan Coffee in Packages, 25c. Leavitt's Coffee, 25c. lb.

TEAS, TEAS—Young Hyson, Oolong and Japan.
The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea trade. The truth is, we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.
Young Hyson Tea, 20c. lb.; best, 50c. lb.
Oolong Tea, 20c. lb.; best, 50c. lb.
Imperial Tea, 20c. lb.; good, 30c. lb.; best, 50c. lb.
Gunpowder Tea, good, 30c. lb.; best, 50c. lb.
Japan Uncolored, good, 30c. lb.; best, 50c. lb.

CANDIES REDUCED 2c. POUND.
This is owing to the decline on Sugar, which has necessarily affected Candy. Pure Blisk Candy, 10c. lb. French Mixed Candy, 10c. Chocolate Bars, 15c. lb. Fancy Bon Bons, 10c. and 20c. lb. Cinnamon Imperial, 15c. lb. English Walnuts, Brazil Nuts and Soft Shelled Almonds, 12c. and 15c. quart.

What do doctors know about corsets?

They know a good deal more sometimes than they dare give their patients the benefit of!

What are they afraid of? Losing their patients.

Many a woman would throw her doctor overboard sooner than change her corset.

What do women know about corsets?

The doctors and women together know all there is to be known. They all agree that Ball's is the proper corset.

You can go to your store and get it and wear it two or three weeks and get your money again, every cent of it, if you want it.

The store has a primer on Corsets for you.

Chas. Romney has resigned his position at the City Carriage works and is now working on a farm near New Haven.

Boy Smith, of the electric office, will soon leave for Chicago with his parents. He will take a position in the office at that place.

The Lake Shore announces that, beginning with Wednesday, next, the road will sell one-way party rates to parties of ten or more.

T. B. Hunt has been appointed foreman of the car department of the Pittsburg shops at Chicago, to succeed D. S. McCardle, deceased.

P. McGuire, night caller at the Pittsburg round house, was off duty last night and E. S. Lenfesty went the rounds during his absence.

E. Taggart, formerly of the Pittsburg car shop, left this morning for a few days stay at Rome City. He will then spend a few weeks at Grand Rapids.

It is said that H. K. Gregory, traveling passenger agent of the Wabash, with headquarters at Danville, Ill., will succeed Frank P. Wade as district passenger agent of the road, with headquarters at Indianapolis.

Engine No. 19, class B, of the Pittsburg road, has been transferred from the sand train at Chicago to through freight and engine 302, has been transferred from shifting cars in this city to the sand train at Chicago.

One of the mechanics on the Pennsylvania line is working on a device by which coal will be fed into the fire-box of a locomotive in the same manner that a horse is fed. It is claimed that if the device is perfected it will greatly increase the heat in the fire-box, so no coal will melt, as is the case when the door of the fire-box is opened to throw in coal.

There is good authority for stating that the officials of the Pennsylvania line west of Pittsburg are seriously considering the question of making two cents per mile the rate on all classes of tickets, and should any of the competitors make two cents a mile the one-way rate to parties of less than five it is said that it will only hasten the Pennsylvania in making two cents per mile the rate over its entire western system.

Martin Beamer, of the tire department of the American wheel works, met with a very painful accident yesterday afternoon while at work. He was welding a buggy tire on an anvil when a part of the hot box he was using splashed into his eye. It was some

time before it could be got out and the ball of the eye was badly burned. The accident, while not serious, is very painful and he will be kept from duty for several days.

Heretofore the one-way party rates were made to ten or more people. Today the Pennsylvania road places them on sale to parties of seven or more. Some of the roads don't like this idea of dropping below ten and say there is no necessity for the break on the part of the Pennsylvania company. They say it is unnecessary, as theatrical companies, for which the rate is chiefly intended, are never composed of less than ten people. The Pennsylvania, however, has its eye on numerous concert companies, glee clubs and small theatrical companies. Last year this road lost all theatrical business by refusing to sell one-way party tickets.

AMERICAN FASHION FOR BALL.
How the Big Feet, Women and Men, Became Excited.

Ram King, of Geneva, in a Chicago Tribune interview, says: "It is astonishing the passion which Americans have for a ball. I can understand the craze for the game; I've had that myself. But the sight of a ball seems to make an American anxious to grab it. In my vicinity are people whose names appear about as often in the society columns as anybody's. In the evenings (shades of Willie Astor!) they sit out in front of their homes, women and girls, and old men, most of them. Two boys get out on the road and pitch ball. You know how they do it. You've seen them do it a thousand times. Now you would think that two boys pitching a ball could take care of the ball, wouldn't you? But the folks in the neighborhood don't think so. One boy throws the other boy the ball. The other boys fall to catch it and the ball rolls away about forty feet. The boy to whom it was thrown doesn't run after it. Why? He knows somebody else will do that. The old man sitting on his veranda, who walks about the house on a cane when his wife is around, jumps from his chair, runs down the road, picks up the ball, and throws it to the waiting boy. I saw a man stop his team one day to get down in the road and pick up a ball for a boy. Two boys were throwing ball near my horse the other day. The ball went over a high fence on one throw. I had been mowing my lawn. I was over the fence in a jiffy and found the ball. I am just as big a fool as any old man in my section. The women aren't any better. I've seen women leave their children to pick up a ball. But a woman can't throw a ball worth a damn. But it seems to do her good to pick it up and hold it until the boy comes and gets it."

Jewelry Station.
St. Louis, Aug. 18.—Superintendent Fuller, of the Missouri Pacific railroad, received a telegram from D. K. Johnson, district superintendent at Kansas City, in which it is stated that three packages of jewelry, consigned from St. Louis, three packages containing about \$70 and two railroad packages, were all that the robbers secured. Mr. S. O. Ridler, of St. Louis, the consignor of the jewelry, said that packages were sent to Nebraska City, and contained jewelry valued at \$100.

Struck by a Cyclone.
WHEELING, W. Va., Aug. 18.—A cyclone struck the town of Belmont in the center of the New European coal fields, on the Ohio river, between this city and Parkersburg, yesterday, and did damage to the amount of several thousand dollars. No lives were lost.

"Don't Care to Eat."
It is with the greatest confidence that Hood's Sarsaparilla is recommended for loss of appetite, indigestion, sick headache, and similar troubles. This medicine gently tones the stomach, secures digestion, and makes one "real hungry." Persons in delicate health, after taking Hood's Sarsaparilla a few days, find themselves longing for and eating the plainest food with unexpected relish.

Wentley's Own Death.
OAKLAND, Cal., Aug. 18.—Dr. Samuel Wentley died here yesterday aged sixty-eight years. He was probably the wealthiest man in Oakland, having acquired vast property here and in San Francisco in the early days.

Says the Southern Medical World:
"Mother's Friend" is growing in favor throughout the South and is highly recommended by physicians. We consider it indispensable to those who have children, after taking Hood's Sarsaparilla a few days, find themselves longing for and eating the plainest food with unexpected relish.

LARS.

E. C. POTTER & CO.

\$578,345.00

E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for insurance effected upon the lives of three members of the illustrious Havemeyer family of the City of New York. The policies selected were the 10 year guarantee contract of the Mutual Life with the annuity feature added. Each policy was for the sum of \$100,000 and the insured chose to make but one payment, thus commencing the cost. The insurance covered by the above mentioned premium, the payment of \$578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, Mr. Theo. Havemeyer, the American Consul General and a Gentleman of wide influence and of great business acumen. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this insurance. First, the Mutual Life Insurance Co. of New York is offering more advantages and greater security than any other form of insurance. Second, that they had such faith in the management and stability of the Mutual Life Insurance Co. of New York that they willingly entrusted to its care nearly \$600,000 in life insurance money, and only the Mutual Life of the company to pay.

The particulars of the life insurance contract for the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of \$578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in mercantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, come to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

It is not in the hands of the company without other security than its promise to pay. If that isn't an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. It has assets of thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and six millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

One of the Cleveland's little peculiarities is the habit of engaging the very best talent available, and then advertising it accordingly. The effect is patent in the past successes of these dashing young managers. It is most generally known and a positive fact that about all the minstrel innovation of recent years has been the work of W. S. Cleveland.

The annual celebration of the Reformed orphan's home will take place to-morrow at the pleasant grounds, two miles east of the city, and an interesting time will be enjoyed by those who wish to attend. Dinner and supper will be served, good music will enliven the occasion, and excellent speakers will be in attendance. Conveyances will be on Clinton street, near the government building, to convey to the grounds those wishing to attend. The affair is given for the benefit of the orphan's home, and should be liberally patronized.

The Weather.

Washington, Aug. 19.—Indiana—Showers; cooler; winds shifting to north-westerly.

DEATH IN AN INSTANT.

Farmer Joseph Kleinrichert of Washington Township, killed by an Emery wheel bursting.

Hardly a week has elapsed since Christian Fulman of Marion township, met his death by the bursting of an emery wheel, and right upon the heels of that fatal accident comes another one almost identical in its details. Joseph Kleinrichert, of Washington township, was this time the unfortunate victim.

Kleinrichert left the house shortly after breakfast this morning stating to his family that he wanted to sharpen a plow point. He proceeded to the barn and began to sharpen the implement on an emery stone, a wheel that was made to revolve rapidly by horse power. While he was bending over his work the wheel broke into a thousand pieces and the deadly fragments were thrown on all sides. A portion of the wheel struck the unfortunate farmer on the head, crushing his skull and tearing off a portion of the scalp. Another sharp pointed particle imbedded itself in the man's neck. Death was quick and painless.

Members of the family found the ghastly corpse lying in a pool of blood soon after and neighbors were summoned. A messenger came for Coroner A. J. Keeler, who started immediately for the scene.

WANTS LEGAL RELIEF.

Laura F. Crabill seeks for a divorce in the Circuit Court.

Laura F. Crabill, through her attorney, Allen Zoller, enters suit in the circuit court against George W. Crabill, for divorce. It is alleged that the defendant spends his time and money in saloons, and does not provide for the plaintiff and children; that he is intemperate as a husband and father, on account of drunkenness and conduct. The petition asks the court to allow her \$150 to prosecute the case, and asks alimony besides the custody of the children.

FRACTURED HIS SKULL.

A Lad Kicked by a Horse and Severely Injured.

This morning a lad working for Farmer Kelley, who lives six miles north of the city, was kicked in the head by a horse. He was severely injured, his skull being fractured. Dr. H. S. Myers was called to attend the lad.

Several new banners will be seen in the parade on that day for the first time.

Several unions, not organized this time last year will be out in the parade this year.

All the shops and manufacturing establishments will be shut down on Labor day.

There is but little question but that the industrial parade will surpass the one of last year.

Garrett City Carpenters union is talking of coming down to Fort Wayne in a body on Labor day.

There will be many surprises in the way of unique and appropriate outfits in the industrial parade.

The Trades and Labor council needs to night and all committees and delegates should be present.

The cigar makers have ordered a handsome suit flag for use on Labor day. It will cost over \$100.

There are forty-five lodges of the Patrons of Industry and Farmers' alliance in Allen county and all are taking an interest in the coming celebration.

The men announced to speak here on Labor day are among the ablest labor orators now on the rostrum. Mr. McGuire has been heard here before and Mr. Harper is not unknown to Fort Wayne people.

O. L. Drummond returned from Huntington last night and reports that a large crowd will be here on September 1, 1890. The bricklayers' and stonemasons' union, recently organized, may come in a body.

STATE NEWS.

Miss Alice Morgan, a school teacher for half a century, is dead at Jeffersonville, at the age of ninety years.

Justice David Baldwin, one of the pioneers of Clark county, died at Oregon on Sunday, aged eighty years.

Alvin Parks, of Oregon, Clark county, was fatally beaten on Saturday by Wm. Pannington, the weapon being a pitchfork.

Poison at a Banquet.

BELLEVILLE, Aug. 19.—A banquet at Topeka was attended by the committee of the Servian progressive party. Subsequently all the members of the committee were taken ill, and their symptoms indicated that they were suffering from the effects of arsenical poisoning. A suspicion exists that the arsenic was placed in the food intentionally, with the object of killing the persons who had partaken of it. It is also thought that the crime was the work of the political enemies of the progressive.

"Haul" Brown, the notorious criminal, was captured by Sheriff Viborg and Tom Wilkinson to-day. He is wanted for stealing a mule in Defiance, O. The sheriff gets \$25 reward.

CANT COME.

Physical Director Baker, of Cleveland, Disappoints the Y. M. C. A.

Recently the City Y. M. C. A. engaged the services of Dr. L. K. Baker, of Cleveland, to take charge of the Y. M. C. A. gymnasium. They had expected he would be able to assume the duties of his position September 1. This morning Secretary D. F. Bower received a letter from Dr. Baker, stating that owing to unlooked for developments he would be unable to accept the charge here. This is to be regretted as the doctor is reputed to be a very fine man for this department. Correspondence will be opened at once to secure a good physical director.

HANDSOME TEMPLE.

The Play Last Night—Preliminary Season Opened.

The Temple gave the first of its preliminary attractions last evening, after the closing for the summer vacation. It was "Uncle's Darling," as presented by the Hottin-Bernard-Chase dramatic company. The play is an interesting one and holds the audience attentive listeners to the close. Miss Chase is a charming actress and was well supported by John Cassidy as "Ah Lin," the Chinaman, Frank Oakburn as "Uncle Billy" and other members of the company. The singing and dancing were special features of the play and merited the applause they received. The Temple has looked an excellent list of attractions for the coming season, which does not open until next month, and Manager Simpson will not spare time or expense to please one theater-going people by playing before them the very best possible attractions he can obtain. The next attraction at the Temple is Cleveland's minstrels, which come Saturday and this is followed by "Colored Aristocracy on Labor Day."

BELOW COST.

We have reduced the prices on Ladies Fine Kid Shoes to less than manufacturers cost. We will sell \$2.00 shoes for \$2.00 to \$2.50, worth \$2.50 to \$3.00. Our stock consists now of only the higher price goods, but we have marked the prices down so low that they must sell.
